1. Executive Summary

gotrustwdu Token (TUR) is a fixed-supply BEP-20 token on BNB Smart Chain with a total supply of 9,000,000,000,000 TUR.

Key contract features:

- No mint function
- No burn function
- No transaction tax or fees
- No hidden owner functions
- Only token name and symbol can be updated by owner

The project emphasizes transparency and is intended for community utilities, rewards, and educational purposes. TUR is not presented as an investment product.
